Venice, Nov. 12. *N. S.*

Signior Ruzzini, who lately came back from his Embassy to the Ottoman Porte, having performed his Quarantaine, as usual, in the Old Lazaretto, his Excellency and his Retinue returned yesterday to his House in this City. The Weather has of late been so excessive rainy, that the Po and other Rivers have overflowed their Banks, and done much Damage to the neighbouring Country; and the badness of the Season has obliged the Duke of Savoy and Prince Eugene to defer their intended Sieges of Cazal and Valenza, and content themselves for the present with blocking up those Places by Detachments of their Troops. His Royal Highness continues encamped at Grospello, and Prince Eugene at Alexandria. They write from Cremona, That General Toralba was marched from thence to the Country called the Seraglio with all the Spanish Forces which were in that Garison, in whose room several French Battalions were come thither, under the Command of an Officer of the same Nation, who was to remain there as Governor. General Wetzel continues to make the necessary Preparations for besieging Modena as soon as the Season permits.

Vienna, Nov. 13. Baron Zeller received yesterday, in the Name of Prince Lewis, Margrave of Baden, the Emperor's Investiture of that Principality. Field-Marshal General Staremberg is returned to Hungary, in order to put himself at the head of the Imperial Army, which continues in Quarters of Refreshment in the Island of Schutt. He is said to have Instructions to receive Proposals, in case any be offered by the Malecontents, who seem desirous to renew the Negociations for bringing Matters to an Accommodation. We have an Account from those Parts, That General Rabutin had repassed the Theys, and was marching to the Relief of Croonstadt, that Place being blocked up by the Malecontents; who threatening to besiege Clausenburg, he would be obliged to continue in Transilvania, in order to prevent them. This Court having been some time without hearing directly from thence, the Letters, as is supposed, being intercepted by the Malecontents, three Expresses were lately sent by so many several Ways towards that Principality, to get a true and certain Information of the Posture of Affairs, and the Condition of the Imperial Army there. Count Maximilian Staremberg has brought hither 5 Standards which were taken from the Malecontents in a late Action that happened near Stampten, between a Body of their Troops, and one of the Imperialists under the Command of Major Petrasch, who entirely routed the Enemy, killing several of them upon the Spot, and taking many Prisoners.
